

Cleaning Guide for Table Tops

PROFESSIONAL

A Clean You Can Trust

1.

Clear the table of all silverware, condiments, and menus. Remove all loose debris from the table and chairs.

2.

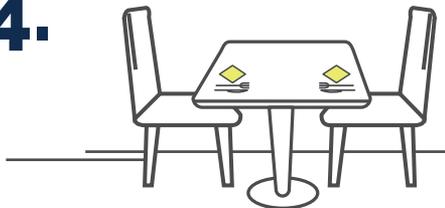

Remove all debris under the table using a dustpan and brush.

3.

Remove visible dirt and grease with Seventh Generation Professional All-Purpose Cleaner and a clean cloth. Then spray Seventh Generation Professional Disinfecting Kitchen Cleaner directly onto the non-porous surface. Leave for 10 minutes, allow to air dry. Buff tables with a clean cloth. No rinsing required on food contact surfaces.

4.

Fill and wipe down condiments and reset the table. If using tablecloths, ensure they are clean and free from stains.

5.

Place tentcard.
